PREFACE

I am pleased to present the 2014 edition of *LSC by the Numbers: The Data Underlying Legal Aid Programs*—formerly known as LSC's Fact Book.

Understanding data is important to our work. *LSC by the Numbers* presents national data on 2014 funding for LSC's 134 legal aid grantees; legal services provided to clients by LSC grantees, including services provided through Private Attorney Involvement (PAI); client demographics; and program staffing. Select historical data from prior years are also included.

LSC by the Numbers reflects actual data with no extrapolations or estimates. Most of the data are derived from the Grant Activity Reports that LSC-funded grantees are required to submit in February and March of each year reflecting activity in the previous calendar year. The remainder of the data are collected from LSC grantee budget and funding records.

We have continued to improve *LSC by the Numbers* to make it easier for a wider audience to use and have included trend data to show changes over time. This information offers a national perspective on the resources available to and the services provided by LSC grantees. It presents a useful overview of the work of LSC grantees on behalf of low-income persons in need of civil legal assistance. This year, for the first time, we have included information on LSC grantees' expenses.

We are interested in your comments, including suggestions for other data compilations that would be useful, and are glad to respond to any questions you may have. *LSC by the Numbers* is available on LSC's website: www.lsc.gov.

FUNDING

LSC receives an annual appropriation from Congress to provide grants to eligible nonprofit organizations delivering legal aid to low-income people. LSC awards grants through a competitive process and funds 134 legal aid organizations that serve hundreds of thousands of low-income individuals, children, families, seniors, and veterans across America. Funds are distributed on a per-capita basis according to each service area's share of the eligible poverty population. LSC accepts applications on a fiscal year basis but funds grantees on a calendar year.

The federal contribution to civil legal aid does not meet all of the eligible population's legal needs; rather, it provides the foundation upon which LSC's grantees can build. LSC grantees supplement federal funds with other resources, such as Interest on Lawyers' Trust Account (IOLTA), state and local funding, grants from philanthropic foundations, and contributions from private donors. They also collaborate with a wide network of private practitioners, bar associations, law schools, access to justice commissions, and business and community organizations to expand legal services to indigent clients. This year we included data on LSC grantees' expenses—allocated to LSC and non-LSC revenues—including staffing, office space, and litigation costs.

CLIENT SERVICES

LSC grantees handle the basic civil legal needs of the poor, addressing matters involving safety, subsistence, and family stability. Most legal aid practices are focused on family law, including domestic violence, child support and custody, and housing matters, including evictions and foreclosures.

More than a third of all cases closed by LSC grantees are family law cases. LSC grantees help parents obtain and keep custody of their children, extended family members secure guardianship of orphaned and abused children, and victims of domestic violence secure protective orders. LSC grantees also work on housing cases. By renegotiating mortgages, resolving landlord-tenant disputes, and assisting renters facing wrongful eviction and property foreclosure, LSC grantees help clients stay in their homes.

CLIENT DEMOGRAPHICS

LSC grantees serve clients of all races, ethnic groups, genders, and ages. They include the working poor, veterans, people with disabilities, and victims of domestic violence.

In 2014, more than two-thirds of LSC clients were women; most were between the ages of 18 and 59. Elder clients often require legal assistance because of special health, income, and social needs, especially to access the government-administered benefits on which many depend for income and health care.

PRIVATE ATTORNEY INVOLVEMENT

LSC grantees leverage federal funding and maximize the number of clients they are able to serve by involving private attorneys in the delivery of legal services, primarily on a volunteer basis. Appropriate pro bono cases are referred to local attorneys who have agreed to represent eligible clients without charge.

In addition to pro bono efforts, grantees involve private attorneys through lawyer referral services sponsored by local bar associations. Such services may refer fee-generating cases to private attorneys in exchange for a commitment to accept pro bono or reduced fee referrals. Grantees also contract with private attorneys to handle individual cases or certain categories of cases, or involve private attorneys as co-counsel in complex cases on a volunteer or contract basis.

STAFFING

As independent nonprofit organizations, grantees hire their own staff. Grantee staff members are not employed by LSC and are not government employees.

In general, legal services attorneys are paid far less than their counterparts in the private sector and significantly less than federal or state government attorneys.

LSC-funded organizations may serve an entire state, a region within a state, or a single city or county. Many grantees maintain multiple offices, while others operate only one. Some grantees operate part-time satellite offices and run "hotlines" that provide telephone intake, advice, and referral programs to facilitate access to their services over a large geographical area.

LSC now reports staff totals as full-time equivalents (FTE), which is standard practice in the U.S. Historically, LSC counted only LSC grantee employees who worked at least 90% time. Using the revised method, LSC now includes grantee employees who work only part of the year as well as part-time employees.

ENDNOTES

[1] All data on this page are from LSC Funding Tables and Grant Activity Reports – 2014.

[2] The computation of the number of attorneys includes all Job Codes 5 to 11 (Litigation Director to Staff Attorney) and all Directors, Deputy Directors and PAI Coordinators who are attorneys. It does not include the small number of attorneys serving in non-attorney positions – e.g., management professionals who are attorneys. Staff totals are full-time equivalents (FTE's).

[3] Annual appropriations levels include funding for LSC Management and Administration, the Office of Inspector General, and other funding not allocated to grantees (e.g., support for the LSC Loan Repayment and Assistance Program). They do not include special supplemental emergency funds or Veterans Court funds. The 1976 figure for annual LSC appropriations includes $24,630,000 supplemental appropriations due to the Fiscal Year change from July 1 to October 1 and therefore includes five quarters' funding. All data on this page are from LSC Funding Tables and Grant Activity Reports – 2014.

[4] "Total LSC Dollars" is the sum of all LSC funding available to grantees, which includes grants received, fund-balances, and other derivative income. Source: LSC Funding Tables, Grant Activity Reports and LSC historical data.

LSC Grants and Related Support includes LSC basic field grants, interest/investment income, attorney fees, publication income, carryover funds, and other LSC funds. Other Federal Grants includes HHS Grants, Older Americans Act, Violence Against Women Act, HUD grants, and other federal grants. Private Grants includes United Way, corporate and individual contributions, private foundation, and bar association grants.

Other Federal Grants includes Title XX, Older Americans Act, Violence Against Women Act, other federal and community development block grants. Private Grants includes United Way, private foundation and bar association grants. Non-LSC Derivative Income includes non-LSC attorney fees, Cy Pres awards, and publication income.

Counsel and Advice - A case closed in which the program provided legal advice to an eligible client should be closed as Counsel and Advice (e.g., the advocate ascertained and reviewed relevant facts, exercised judgment in interpreting the particular facts presented by the client and in applying the relevant law to the facts presented, and counseled the client concerning his or her legal problem). Limited Action - A case closed in which the program took limited action(s) on behalf of an eligible client that addressed the client's legal problem that is not so complex or extended as to meet the requirements for CSR Category L should be closed as Limited Action. Examples include communications by letter, telephone or other means to a third party; preparation of a simple legal document such as a routine will or power of attorney. Extensive Service - A case closed in which the program undertook extensive research, preparation of complex legal documents, extensive interaction with third parties on behalf of an eligible client, or extensive on-going assistance to clients who are proceeding pro se should be closed as Extensive Service. Some examples of extensive service include preparation of complex advance directives, wills, contracts, real estate documents or other legal documents, or the provision of extensive transactional work.

All such cases are reported as involving domestic violence, but if a client has experienced domestic violence but that domestic violence does not come up in the actual case, then the case is not counted as involving domestic violence.

[18] Totals by age and ethnicity are not equal to the totals by gender because a few programs were not able to provide complete information. Also, the total of veterans and non-veterans is less than the totals by age and ethnicity because not all programs were able to collect complete statistics on veteran status of client households in 2012. Note that LSC counts a household as veteran if any member of that household is a veteran. Data are also from LSC Grant Activity Reports.

Private Attorney Involvement (PAI) is an LSC program to involve private attorneys (those not working for an LSC grantee) in the delivery of legal services to low-income clients eligible for LSC-funded legal assistance. As provided in 45 C.F.R. §1614, LSC grantees are required to devote at least 12.5% of Basic Field-General funding to this method of delivery of legal services. Pro Bono – PAI programs in which attorneys are recruited and assisted to provide legal services to eligible clients without compensation. Compensated – PAI programs in which attorneys are compensated at a reduced rate to provide legal services to eligible clients, usually either: (1) by contract with the grantee program under which an attorney receives a reduced fee either for a single case or for a set number of cases; or (2) a member of a "Judicare" panel where all private attorneys who practice in the service area are invited to participate. Attorneys may elect on a case-by-case basis whether to take a client. Under some models, clients may choose among panel attorneys while under others, panel attorneys are assigned by rotation.

Unlike CSR cases, these services are not eligibility checked, although they are targeted to and promoted among the client-eligible population. A CSR case is defined as the provision of permissible legal assistance to an eligible client with a legal problem, or set of closely related legal problems, accepted for assistance in accordance with the requirements of the LSC Act, regulations, and other applicable law.

The total for attorneys includes all attorneys on staff, including the small number (78) of attorneys serving in non-attorney positions (e.g., management professionals who are attorneys).

An FTE equals the number of hours the staff member worked each week divided by standard numbers of hours for full-time. The result is then multiplied by the percentage of year the staff member was employed.
